The classic Cardboard Mode was created by Andreas Förstl for both iOS and Android devices including but not limited to iPod Touch, iPad & iPhone. It was inspired by various arcade games that would allow players to play with their own heads as a reference. Cardboard Mode was released as a premium in-app purchase for "Coin Master" and was available for Android devices on Google Play on August 14, 2021. The iOS version of the app has been removed from the App Store.",

Overall I found Coin master to be a fairly quick game to play, although it is not as addictive as some of the other games on this site. I would recommend giving it a try for 50 minutes or so and see if you enjoy it before you decide whether to purchase it at all. The game itself is free but there are unlockables such as achievements and costumes which can't be unlocked unless you decide to spend your in-game coins (which costs about \$2 per million coins). You can also still play the free version of the game without spending your coins, but you won't be able to unlock all the achievements and costumes as you progress through the game.",

Great game - one issue by nathaniel lewis on 2021/09/19 02:08 This is a great game, the puzzles are challenging, and the controls are very clean. My only problem is that when playing through the puzzles you occasionally need to hit a certain combination of tiles to continue. The problem is that those combos vary from level to level depending on your progress, so I end up having to restart my phone if i want to get back into the puzzle where I left off. A little frustrating, but still a great game.”,
